Technical Data Sheet

SXS TRANS EXTREME

HIGH PERFORMANCE TRANSMISSION OIL

DESCRIPTION:

Full synthetic transmission oil engineered for SXS/UTVs operating under the most extreme racing conditions. Advanced shear-stable, oxidation-resistant chemistry preserves film strength to provide sustained protection for gears and bearings exposed to intense shock loading and extreme temperatures in endurance competition applications.

FEATURES & BENEFITS:

- Fully compatible with torque-limiter clutch assemblies
- Prevents scuffing and pitting of gears under high-temp / high-load conditions
- Advanced low-friction formulation reduces operating temperatures
- Superior film strength maintains separation of critical contact surfaces
- Ideal for desert racing and sand dune applications

APPLICATIONS:

For modern SXS/UTV transmissions. Can be used in wet rear brake systems.

For applications specifying API GL-5 gear oil, see SXS Syn Gear 75W-90 and 75W-140.
