SEMI-SYNTHETIC FOAM FILTER TREATMENT OIL

DESCRIPTION:

Semi-synthetic foam air filter oil designed through a 3-year development program to maximize collection of particulates and contaminants while ensuring optimal air flow. Unique formulation utilizes a proprietary blend of synthetic polymers to allow up to 12% more air flow than competitive formulations while stopping up to 8% more contaminates. Extensively developed formulation resists water, gasoline “fogging” and will not dry out. Safe for use on all foam air filters.

FEATURES & BENEFITS:

- Suitable for use with all foam air filters
- Allows up to 12% more air flow than competitors
- Catches up to 8% more particulates and contaminates than competitors
- Water & gasoline “fogging” resistant
- Will not degrade foam material or dry out

APPLICATIONS:

For use on all foam air filters. For best results, use PROFILTER Premium or Ready-to-Use air filters.
