Technical Data Sheet

WATERPROOF GREASE

MULTI-PURPOSE LITHIUM COMPLEX GREASE

DESCRIPTION:

High performance Lithium complex grease that excels in a multitude of conditions, from light duty chassis applications to extreme conditions such as wheel bearings. Formulated with a high dropping point and a robust antioxidant system, the NLGI Grade 2 grease remains stable and effective at extreme temperatures. The Lithium complex thickener and high-quality base oils combine with an advanced additive package to ensure excellent protection against wear, water washout, corrosion and oxidation.

FEATURES & BENEFITS:

- Superior protection across a wide range of temperatures and applications
- Resistance to high temperatures and water washout ensures long-lasting protection
- High film strength provides excellent anti-wear and extreme pressure performance
- Resistance to salt water corrosion makes ideal for use in marine applications
- Meets NLGI Certification GC-LB

APPLICATIONS:

Multi-purpose grease can be used for most heavy duty and light duty applications including wheel bearings, axles, chassis, brake hardware and as a sealant for air filter bases. For use from -20°F (-29°C) to 560°F (293°C).

TECHNICAL DATA

SPECIFICATION	TEST METHOD	NLGI 2
APPEARANCE	VISUAL	Blue
THICKENER TYPE	-	Lithium Complex
PENETRATION, WORKED 60 STROKES	D217	270
DROPPING POINT (°F)	D2265	525
4-BALL WELD POINT (kg)	D2596	500
WATER WASHOUT (%)	D1264	2.2
